Technology Center 2100

Prior to examination applicant requests entry of the following amendments.

IN THE CLAIMS

Please add the following new claims.

20. (Newly Added) A system for providing information related to a product in a
retail location, the system comprising:

- a display screen positioned in the retail location;
- a storage device positioned in the retail location, said storage device containing
graphical, display-ready content related to the product;
- a network coupling the display screen and said storage device;
